

UTAH POWER & LIGHT COMPANY
ELECTRIC SERVICE SCHEDULE NO. 192

STATE OF UTAH

Self-Direction Credit

PURPOSE: To allow customers to self-direct Schedule 191 DSM Cost Adjustment charges into cost-effective demand side management (DSM) projects within their own facilities.

APPLICATION: This Schedule shall be available to an Eligible Customer subject to a DSM Cost Adjustment charge pursuant to Electric Service Schedule No. 191 in accordance with the terms and provisions specified herein.

A customer with multiple meters measuring usage at facilities, one or more of which will be involved in a DSM Project, may aggregate the loads at those facilities to meet minimum usage requirements to qualify as an Eligible Customer, so long as the DSM Project for the aggregated facilities is submitted as a single project. Customers who become Eligible Customers through aggregation of meters must bear any incremental costs and expenses incurred by the Company and the Self-Direction Administrator in excess of the average costs and expenses incurred in connection with customers who are Eligible Customers without consideration of aggregation.

TERM: The term of this Self-Direction Credit shall be coterminous with the DSM Cost Adjustment provided in Schedule 191, both of which will expire automatically, absent a Commission order extending the term, on March 31, 2014.

DEFINITIONS:

Efficiency Criterion: A projected Payback Period (or average Payback Period for projects submitted as a package) of between 1 and 5 years. The Self Direction Administrator may utilize an alternative Efficiency Criterion for a project with a projected Payback Period in excess of five years that is demonstrated to the satisfaction of the Self Direction Administrator to provide system benefits and to satisfy the Commission's approved cost-effectiveness tests.

Eligible Customer: A customer with a peak load of 1,000 kw or annual usage of 5,000,000 kwh or greater within the prior 12 months at a single meter or at meters that are aggregated.

Eligible Expenses: All actual expenses reasonably incurred by an Eligible Customer in connection with the construction, installation or implementation of an Eligible Project, including but not limited to equipment costs, engineering and consulting expenses, and finance charges. Expenses incurred in connection with new construction or expansion of existing facilities are Eligible Expenses only to the extent that additional expenses are incurred to achieve energy efficiency levels that exceed standard industry practices for new construction or expansion as determined by the Self-Direction Administrator based on practices generally utilized by energy engineering professionals and/or reference to publicly available resources for energy engineering.

Eligible Project: A DSM Project of an Eligible Customer that satisfies the Efficiency Criterion, is determined by the Self-Direction Administrator to be a project for which Self-Direction Credits will be available, and that was not funded in whole or in part through another Commission-approved program. Such funding shall include incentive payments and costs incurred by the Company for engineering services provided to the Eligible Customer. Such funding shall not include financing received through a Commission-approved program.

DSM Project: A measure (or package of measures submitted for

consideration together), activity or program, meeting reasonable industry standards as determined by the Self-Direction Administrator or the Commission that is designed to promote electric energy efficiency or conservation or more efficient management of electric energy loads at an Eligible Customer's facility.

Payback Period: The projected period for an Eligible Customer to recover all expenses actually incurred in connection with a DSM Project from electric energy and demand cost savings on a simple payback basis.

Required Information: Plans, drawings, energy and demand savings calculations, pay-back calculations, usage information, as-built information, receipts, expense itemizations, information regarding Company funding, financing arrangements and/or other data and information needed for determinations of an Eligible Customer, an Eligible Project, Eligible Expenses, or other matters required to be determined by the Self Direction Administrator hereunder. Self-Direction Credit: A credit equal to the applicable percentage of an Eligible Customer's total Eligible Expenses to be applied against that Eligible Customer's monthly Schedule 191 DSM Cost Adjustment charges until the entire credit has been utilized or until Schedule 192 expires.

Transition Project: A DSM Project completed prior to the Commission Approval Date of this Schedule 192 that receives qualification as a Completed Project in accordance with Section 2 of the Provisions of Service and for which an Application for qualification is filed within six months of the Commission Approval Date of this Schedule 192. The customer bears the burden of documenting to the satisfaction of the Self-Direction Administrator the existence and the amount of all claimed expenditures.

Total Self-Direction Credits available under this Section shall not exceed \$1,500,000 in any year. To the extent the Self-Direction Administrator determines at the time an Eligible Customer seeks pre-qualification or qualification of an Eligible Project under Sections 1 or 2 of the Provisions of Service that providing the credit would result in total credits under this Section that are projected to exceed \$1,500,000 in any year, such Eligible Customer will not be pre-qualified or qualified for Self-Direction Credits for that year in excess of such maximum value, and the Self-Direction Administrator shall provide written notice of such determination to the Eligible Customer, the Commission, the Division and the Committee.

AVAILABILITY OF SELF-DIRECTION CREDIT FOR TRANSITION PROJECTS: An Eligible Customer that completed a Transition Project prior to the Commission Approval Date of this Schedule 192 shall receive a Self-Direction Credit for up to four (4) years following the Effective Date of this Schedule 192 in the amount of fifty-six percent (56%) of Eligible Expenses incurred after August 1, 2001 in connection with a Transition Project, as determined in accordance with the Provisions of Service. To the extent the Company provided engineering services for a Transition Project after August 1, 2001 for a project that had not been commenced as of the Commission Approval Date of this Schedule 192, an Eligible Customer may receive a Self-Direction Credit for Transition Projects only if it first repays reasonable costs incurred by the Company in connection with such engineering services, together with interest calculated at the AFUDC rate. Total Self-Direction Credits for Transition Projects used to offset Schedule 191 charges during the first four (4) years following the Effective Date of this Schedule 192 shall not exceed Four Hundred Thousand Dollars (\$400,000) in any year. To the extent the Self Direction Administrator determines that potential Self Direction Credits for timely filed and approved Transition Projects that may be used to offset Schedule 191 charges during any of the first four (4) years following the Effective Date of this Schedule 192 are projected to exceed that maximum value, Self Direction Credits for all such Transition Projects shall be reduced proportionately to the maximum value. This proportionate reduction shall be based upon each Eligible Customer's estimated

Schedule 191 DSM Cost Adjustment Charges for the first four (4) years after the Effective Date of this Schedule 192, as estimated by the Self Direction Administrator based upon each such Eligible Customer's average electric bill since August 1, 2001, rates in effect as of the Commission Approval Date, and the Schedule 191 collection rates initially approved by the Commission.

AVAILABILITY OF FIFTY PERCENT SELF DIRECTION CREDIT: An Eligible Customer shall receive a credit equal to one-half of its monthly Schedule 191 DSM Cost Adjustment charges for 24 consecutive monthly billings if the Eligible Customer demonstrates to the satisfaction of the Self Direction Administrator through an energy audit performed at the expense of the Eligible Customer by an auditor retained by the Self-Direction Administrator that there are no remaining Eligible Projects or other DSM Projects with a Payback Period of eight (8) years or less available at all of the Eligible Customer's facilities served through a meter or aggregated meters used as the basis for determining Eligible Customer status. Such demonstration shall be based on publicly available resources, including, but not limited to: United States Department of Energy, Industrial Technologies Program, Best Practices Screening Tool and the United States Green Building Council Green Building Rating System for New Construction and Major Renovations Version 2.1 or successor versions. This credit may be renewed every 24 months based upon a new energy audit. This Fifty Percent Self Direction Credit will not be available to an Eligible Customer during any time the Eligible Customer is receiving a Self-Direction Credit. Total Self-Direction Credits available under this Section shall not exceed \$100,000 in any year. To the extent the Self-Direction Administrator determines at the time an Eligible Customer seeks a credit under this Section that providing the credit would result in total credits under this Section that are projected to exceed \$100,000 in any year, such Eligible Customer will not be entitled to Fifty Percent Self-Direction Credits for that year in excess of such maximum value, and the Self-Direction Administrator shall provide written notice of such determination to the Eligible Customer, the Commission, the Division and the Committee.
