Resolution No. 54

Submitted by:

The Honorable Will Wynn  
Mayor of Austin

The Honorable Heather Fargo  
Mayor of Sacramento

The Honorable Mark Begich  
Mayor of Anchorage

The Honorable Shirley Franklin  
Mayor of Atlanta

The Honorable Michael Belsky  
Mayor of Highland Park

The Honorable Patrick Hays  
Mayor of North Little Rock

The Honorable David Berger  
Mayor of Lima

The Honorable John Hickenlooper  
Mayor of Denver

The Honorable Michael Bloomberg  
Mayor of New York City

The Honorable Elizabeth Kautz  
Mayor of Burnsville

The Honorable Marty Blum  
Mayor of Santa Barbara

The Honorable Scott Lang  
Mayor of New Bedford

The Honorable James Brainard  
Mayor of Carmel

The Honorable Brenda Lawrence  
Mayor of Southfield

The Honorable Roy Buol  
Mayor of Dubuque

The Honorable Tom Leppert  
Mayor of Dallas

The Honorable Kevin Burns  
Mayor of North Miami

The Honorable Gene Marks  
Mayor of Northbrook

The Honorable Martin Chavez  
Mayor of Albuquerque

The Honorable Thomas Menino  
Mayor of Boston

The Honorable Robert Cluck  
Mayor of Arlington

The Honorable Larry Nelson  
Mayor of Waukesha

The Honorable Dan Coody  
Mayor of Fayetteville

The Honorable Gavin Newsom  
Mayor of San Francisco

The Honorable David Coss  
Mayor of Santa Fe

The Honorable Thomas O’Grady  
Mayor of North Olmsted

The Honorable Manuel Diaz  
Mayor of Miami

The Honorable David Pope  
Mayor of Oak Park

The Honorable Tom Potter  
Mayor of Portland

The Honorable Laurel Prussing  
Mayor of Urbana
ENDORSING 30% RESIDENTIAL EFFICIENCY IMPROVEMENT IN 2009 INTERNATIONAL ENERGY CONSERVATION CODE

1. WHEREAS, America’s mayors have long recognized the importance of energy efficiency in the development of a successful national energy policy; and

2. WHEREAS, homes and non-industrial buildings represent America’s largest energy-consuming sector – using approximately 40 percent of the nation’s energy and 75 percent of its electricity; and

3. WHEREAS, the International Energy Conservation Code (IECC) is the most widely used model code for residential construction in the U.S., establishing efficiency baselines that are voluntarily adopted by cities throughout the country; and

4. WHEREAS, the IECC is currently undergoing a review and revision process that occurs once every three years, involving committee hearings in the spring and a final vote in the fall; and

5. WHEREAS, calls for increasing residential efficiency by 30 percent have been issued by the Western Governors Association, ASHRAE, the U.S. EPA/DOE National Action Plan for Energy Efficiency, the American Institute for Architects, the Business Roundtable and by leaders in Congress from both parties; and

6. WHEREAS, the broad-based Energy Efficient Codes Coalition has compiled a series of efficiency improvements into a comprehensive package of recommendations known as The 30% Solution and submitted it for adoption; and

7. WHEREAS, support for The 30% Solution comes from a diverse cross-section of energy efficiency professionals, including the National Association of State Energy Officials, all five regional energy efficiency alliances, the Alliance to Save Energy, the American Council for an Energy Efficient Economy, and electric utilities (IOUs, municipal and coops); and

8. WHEREAS, The 30% Solution incorporates affordable, off the shelf technologies and practices, and studies show these efficiency improvements would enhance the affordability and security of homeownership by creating net positive cash flow for homeowners; and

9. WHEREAS, at its February hearings, the IECC Development Committee took significant preliminary steps toward adopting The 30% Solution, recommending provisions estimated to improve efficiency by approximately 20 percent over the existing 2006 IECC; and

10. WHEREAS, this September the International Code Council (ICC), a body made up primarily of municipal code officials, will consider Development Committee recommendations and the input of voting members present and will vote to establish the 2009 IECC; and

11. WHEREAS, mayors are in a unique position to encourage the eligible code officials from their cities to participate in the ICC deliberations and vote for the full package of efficiency measure outlined in The 30% Solution; and
12. **WHEREAS**, the 2009 IECC will strongly influence efficiency performance in the more than three million homes expected to be built in the U.S. through 2012, and success in achieving full adoption of The 30% Solution will have a tremendous impact in reducing energy use over the life of those homes,

13. **NOW, THEREFORE, BE IT RESOLVED**, that the U.S. Conference of Mayors endorses the full adoption of The 30% Solution at the ICC’s Final Action Hearings this September in Minneapolis and encourages eligible code officials to attend these hearings and to vote in favor of the adoption of The 30% Solution.
